

Mind Map

Panel 1

A new user downloads the exercise leaderboard app and sign in with their details and sync the wearables with the app.

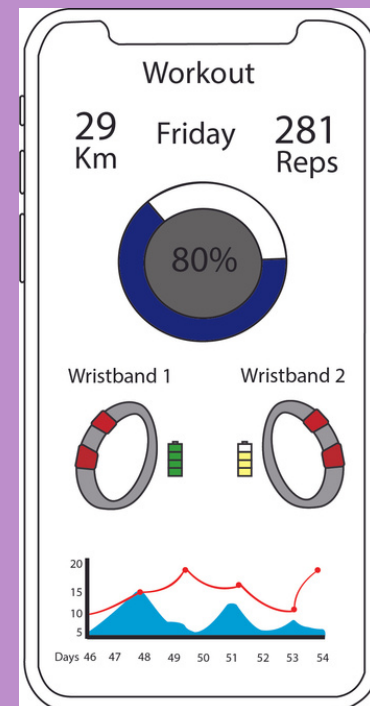

Panel 2

At the gym, the user scans a QR code on the exercise machine with the application, and the wearable sync to the exercise.

Panel 3

During exercise, his wrist band flashes red due his prolonged incorrect form of not arching his back

Panel 4

After the exercise, the app record down the details of the exercise and adds it to the overall counter of the user

Panel 5

Users are categorized based on performance, with prizes awarded weekly

Panel 6

Users can challenge friends or gym buddies, fostering a competitive yet supportive environment.

Real-Time Updates:
A dynamic
leaderboard that
updates in real time.
As users input their
workout data, the
leaderboard
instantly reflects
their scores
